This thoroughly updated and revised second edition of this foundational Handbook combines practical and theoretical analyses to cover a wide array of cutting edge issues in international environmental law (IEL). It provides a comprehensive view of the complexity of IEL, both as a field in its own right, and as part of the wider system of international law.

The United Nations Convention on the Law of the Sea, Part XI Regime and the International Seabed Authority: A Twenty-Five Year Journey, adopts a unique multidisciplinary approach by focusing on the legal, scientific, and economic perspectives of the United Nations Convention on the Law of the Sea and the Agreement relating to the Implementation of Part XI of the Convention. Central to its theme is raising awareness of the important role of the International Seabed Authority and how much it has achieved over the last 25 years in creating a regime for deep seabed mining. Through the rich and wide range of contributions, readers will be able to draw interesting new insight into the Authority's evolutionary work as well as its legal framework.
